

End of Life Care Practice Development Team

Our aim is to share information & inform you of our education sessions

Welcome to our newsletter for 2021, we hope you are all keeping well during this difficult time. We are excited to inform you that we have adapted some of our key courses to be delivered virtually. Whilst this may not be our preferred way of teaching or your preferred way of learning, sessions do seem to be evaluated rather well!

We will be teaching online for the foreseeable future and with this in mind have selected our most relevant courses that will enhance your knowledge in key areas. Please see below for more details and contact us to book places. Syringe Pump training can be delivered securely face to face following current guidelines and can be completed in care homes, please contact the team directly if you would like more information.

Also a reminder that E-learning modules are available for free on the e-learning programme End of Life Care for All (e-ELCA), visit <https://www.e-lfh.org.uk/programmes/end-of-life-care/> for more information.

Care of dying adults in the last days of life for Registered Professionals

This course offers a foundation in evidence based End of Life Care for registered professionals across health and social care providers. Four, two hour workshops will be facilitated virtually, each with a key theme including; prognostication, advance care planning, symptom assessment and management, 5 priorities for care and bereavement.

- ❖ Tuesday 2nd February 2021
- ❖ Tuesday 16th February 2021
- ❖ Tuesday 2nd March 2021
- ❖ Tuesday 16th March 2021

Total cost of 4 x 2 hour workshops is £120.

NHFT staff can access this course using CPD funding, please get in touch to reserve a place and to access this funding.

All Workshops will run via MS Teams 2.30 - 4.30pm

SAGE & THYME foundation level workshop teaches:

- A memorable structured approach for getting into and out of a conversation
- How to empower patients/carers who are worried or distressed
- Communication skills that are evidence based
- ❖ Thursday 11th March 2021 - 9.30am-12.30pm
- ❖ Tuesday 30th March 2021 - 1pm - 4pm

This is a nationally recognised workshop charged at £90 per person. NHFT staff can access using CPD funding, please get in touch for more information.

T34 McKinley Syringe Pump Training for Registered Nurses

Syringe pump training is being delivered face to face within individual care homes following current guidelines. Please contact us to discuss this.

If your organisation has specific learning needs and would like to commission bespoke education please contact us to discuss this.
